

## Top 10 Most Cited Papers

| Citation Key       | Paper Title                                                                                                                              | Journal                                | Year | Total Citations | Cites / Year |
|--------------------|------------------------------------------------------------------------------------------------------------------------------------------|----------------------------------------|------|-----------------|--------------|
| PARISI GI (2019)   | Continual Lifelong Learning With Neural Networks: A Review                                                                               | NEURAL NETWORKS                        | 2019 | 2286            | 285.75       |
| HIPLOYLEE C (2017) | Longitudinal Study Of Postconcussion Syndrome: Not Everyone Recovers                                                                     | JOURNAL OF NEUROTRAUMA                 | 2017 | 227             | 22.70        |
| YUSTE R (2020)     | A Community-Based Transcriptomics Classification And Nomenclature Of Neocortical Cell Types                                              | NATURE NEUROSCIENCE                    | 2020 | 186             | 26.57        |
| DU SQ (2017)       | Molecular Mechanisms Of Vascular Dementia: What Can Be Learned From Animal Models Of Chronic Cerebral Hypoperfusion?                     | MOLECULAR NEUROBIOLOGY                 | 2017 | 184             | 18.40        |
| VAIDYA AR (2019)   | Lesion Studies In Contemporary Neuroscience                                                                                              | TRENDS IN COGNITIVE SCIENCES           | 2019 | 164             | 20.50        |
| SEKERES MJ (2016)  | Recovering And Preventing Loss Of Detailed Memory: Differential Rates Of Forgetting For Detail Types In Episodic Memory                  | LEARNING & MEMORY                      | 2016 | 137             | 12.45        |
| CHAAYA N (2018)    | An Update On Contextual Fear Memory Mechanisms: Transition Between Amygdala And Hippocampus                                              | NEUROSCIENCE AND BIOBEHAVIORAL REVIEWS | 2018 | 135             | 15.00        |
| YANG Y (2017)      | Neonatal Maternal Separation Impairs Prefrontal Cortical Myelination And Cognitive Functions In Rats Through Activation Of Wnt Signaling | CEREBRAL CORTEX                        | 2017 | 106             | 10.60        |
| CHEN WC (2019)     | Aryl Hydrocarbon Receptor Modulates Stroke-Induced Astrogliosis And Neurogenesis In The Adult Mouse Brain                                | JOURNAL OF NEUROINFLAMMATION           | 2019 | 88              | 11.00        |
| SINGH T (2021)     | Ptz Kindling Model For Epileptogenesis, Refractory Epilepsy, And Associated Comorbidities: Relevance And Reliability                     | METABOLIC BRAIN DISEASE                | 2021 | 86              | 14.33        |
